

Employment Cost Index

Historical Listing (June 1989=100)

Table #	Page
<i>Seasonally adjusted</i>	
Civilian, State and local government, and Private industry; by occupation and industry	
1a Compensation.....	3
1b Wages and salaries	11
1c Benefits	20
<i>Not seasonally adjusted</i>	
Compensation	
2a Civilian; by occupation and industry	25
2b State and local government; by occupation and industry	33
3 Private industry; by occupation and industry	40
4 Private industry; by bargaining status, region, and area size	66
Wages and salaries	
5a Civilian; by occupation and industry	75
5b State and local government; by occupation and industry	83
6 Private industry; by occupation and industry	90
7 Private industry; by bargaining status, region, and area size	120
Benefits	
8 Civilian, State and local government, and Private industry; by occupation and industry.....	131

NOTES

The ECI uses a five-year moving average of standard errors to evaluate published series because standard errors vary from quarter to quarter. To assist users in ascertaining the reliability of series, the five-year moving average of standard errors for all estimates (excluding seasonally adjusted series) will be available on the Internet site (<http://www.bls.gov/ncs/ect/>) shortly after publication of the news release.

Beginning with March 1995, ECI measures are based on 1990 fixed employment counts. A report on this reweighting, "Introducing 1990 Weights for the Employment Cost Index," is available upon request.

From June 1986 through December 1994, ECI measures were based on 1980 fixed employment counts, while prior to June 1986, they were based on 1970 employment counts.

Beginning with the March 1990 ECI news release, the base for ECI index numbers is June 1989=100, rather than June 1981=100. The change is explained in the technical note, "Employment Cost Index Rebased to June 1989," in the April 1990 issue of the Monthly Labor Review. The percent changes shown in the tables in this listing were calculated from the rebased indexes. Thus, changes may differ from those originally published because of rounding. A table of conversion factors, which allows users to calculate percent changes based on the June 1981 base, is available upon request.

When using the ECI for escalation contracts, users should request the article "Escalation in Employer Costs for Employee Compensation: A Guide for Contracting Parties."

More detailed information on the ECI is available in several sources. These include the bulletin – Employment Cost Indexes, 1975-99 (Bulletin 2532), a chapter in the BLS Handbook of Methods (Bulletin 2490), "National Compensation Measures," and several articles published in the Monthly Labor Review and Compensation and Working Conditions. The bulletin is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, or Bureau of Labor Statistics, Publications Sales Center, P.O. Box 2145, Chicago, Illinois 60690, (312) 353-1880. Reprints of the articles and other descriptive pieces are available upon request by calling (202) 691-6199 or sending e-mail to ocltinfo@bls.gov). Current and historical data are available at the web site: (<http://www.bls.gov/ncs/ect/>).

¹ Excludes farm and household workers.

² This series has the same industry and occupational coverage as the Hourly Earnings Index, which was discontinued in January 1989.

³ Includes mining, construction, and manufacturing.

⁴ Publication of data for service occupations in manufacturing and other

goods-producing industries has been discontinued due to insufficient sample size.

⁵ Includes transportation, communication, and public utilities; wholesale and retail trade; finance, insurance, and real estate; and service industries.

NOTE: Dashes indicate data not available.

¹ Excludes farm and household workers.

² This series has the same industry and occupational coverage as the Hourly Earnings Index, which was discontinued in January 1989.

³ Includes mining, construction, and manufacturing.

⁴ Publication of data for service occupations in manufacturing and other

goods-producing industries has been discontinued due to insufficient sample size.

⁵ Includes transportation, communication, and public utilities; wholesale and retail trade; finance, insurance, and real estate; and service industries.

NOTE: Dashes indicate data not available.
